FAQs

How do you take payments?

Ferndown Family Vets will take recurring card payments from a designated payment card.

What happens if my card expires/there is a change of card details?

You will be required to set up a new payment card with Ferndown Family Vets. Please email us at hello@ferndownfamilyvets.co.uk or call us on 01202 877811 to discuss how to get a new card setup.

Can I make a single payment for the whole year?

Yes you can, please discuss this with the team when registering for the plan.

What happens if I decide to leave part way through the year? *You are entitled to leave the plan at any time but please be aware that the contract is for 12 months and renews each year. If you decide to leave part way through the year you will be liable for the full cost of any products and treatments you have received and a cancellation payment may therefore be due.*

What is the Wellbeing check?

We have an extremely experienced team of qualified veterinary nurses who will perform a full assessment of your pet. This may include discussions/questionnaires regarding their behaviour and mobility or allowing them to move freely in the consultation room to see how they move their body and behave 'free-work'.

You will be contacted by Ferndown Family Vets to organise this visit. We aim to perform this check around 6 months after your pets vaccinations.

Does the plan provide me with discounts for when my pet is unwell?

The PAW plan is dedicated to providing excellent preventative healthcare to your pet. It is not a discount plan for when your pet becomes unwell. We would recommend pet insurance for your pet to help cover costs when they become unwell.

What parasite control treatments does the plan include? *There are certain products included in the plan and recommended protocols, if you have specific requirements please discuss with a member of the team.*

Currently the plan covers:

Dogs - Simparica Trio tablet (monthly) OR Prinovox spot on (monthly) AND Droncit tablets (annually).

Cats - Stronghold Plus spot on (monthly) OR Credelio tablets (monthly) AND milpro tablets (up to 4 a year) OR profender spot on (up to 4 a year).

Some patients may be at a higher risk of tapeworm infections due to specific lifestyles and the veterinary team may recommend more regular treatment than described above. Please be aware there will likely be additional charges for this.

Examples would include; raw fed patients, farm cats that hunt very regularly.

What is a bespoke fear free visit?

These visits are designed to help your pet develop a positive attitude towards visits to Ferndown Family Vets. They will help desensitise them to handling and clinical examination helping reduce fear and anxiety when they require assessment and treatment at the practice and also at home.

What vaccinations are included?

*What are deemed as core vaccines in the UK are included in the plan: Cats - cat flu (calicivirus/herpesvirus), panleucopenia and feline leukaemia virus
Dogs - distemper, hepatitis, parvovirus, leptospirosis and kennel cough (at the same time as annual vaccinations)*

The plan doesn't include other vaccines such as rabies or leishmaniasis.
